

Monogrammed Apron Pattern

To create your pattern

Use freezer paper for your pattern or tape four pieces of printer paper together along horizontal edges. You need at least 28 inches by 11 inches worth of paper.

To draw your pattern

Use the left side of your paper (freezer or printer) as the center of your apron. The apron measures 27.5 inches from the top edge to the bottom edge. Mark where the top edge will begin, and measure down 27.5 inches to mark the bottom edge.

You will need to draw three horizontal lines that run perpendicular to your center line. See the diagram below.

Using a ruler, draw a line to connect line A to line B. Then, draw a line to connect line B to line C.
